SPECIES UNICA

BORN IN VENICE

WoodN Industries realizza progetti con i suoi materiali innovativi, per vestire di eleganza sartoriale le idee del mondo dell'architettura e del design, nel rispetto dell'etica e dell'ambiente.

WoodN Industries creates projects with its innovative materials to clothe the ideas of the world of architecture and design with sartorial elegance, while respecting ethics and the environment.

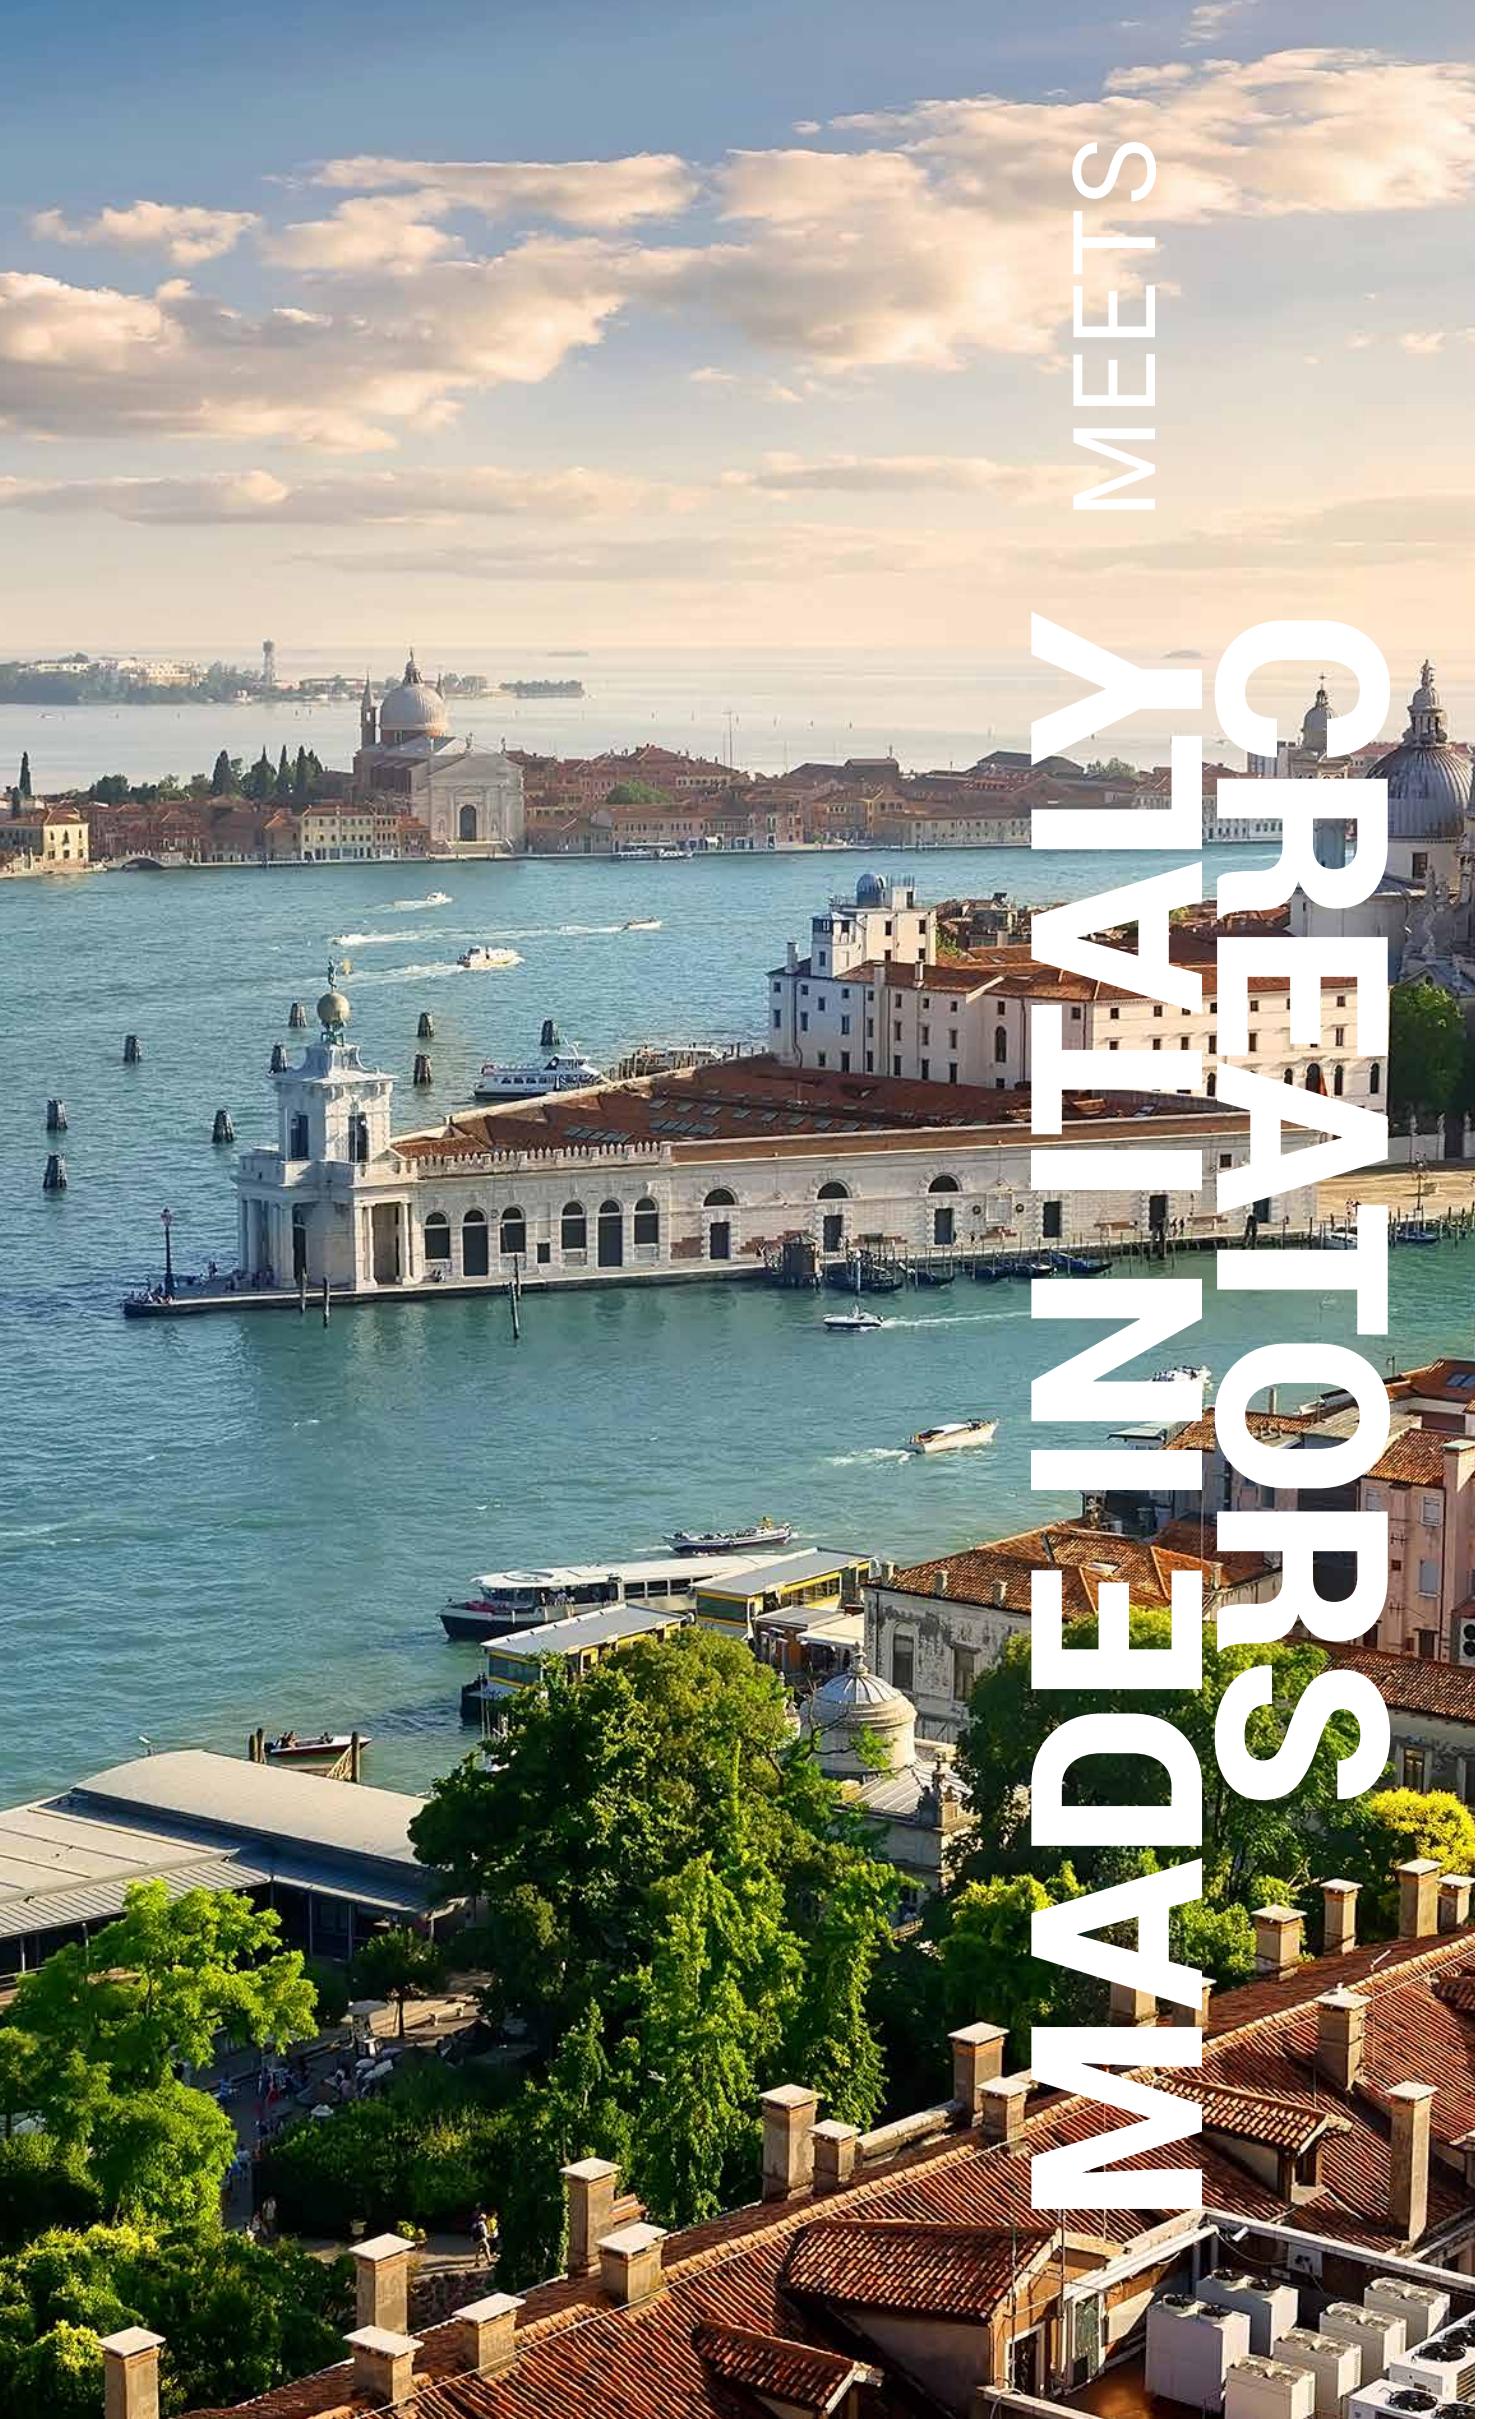

WOODN MEETS GREENWOOD

L'incontro di due brand leader, di due formule perfettamente complementari, amplifica le possibilità per il mondo della moderna architettura: WoodN, con la leggerezza dei suoi materiali, e Greenwood, con la resistenza e stabilità del suo decking, uniscono le forze in WoodN Industries per rispondere alle più diverse esigenze di applicazioni orizzontali e verticali.

The meeting of two leading brands, of two perfectly complementary formulas, amplifies the options for the world of modern architecture: WoodN, with its light materials, and Greenwood, with its durable and stable decking, join forces in WoodN Industries to meet the most different needs of both horizontal and vertical applications.

L'idea diventa realtà.
Linee inesplorate incontrano
l'efficacia funzionale, definendo
progetti inediti per forme
ed estetica.

*An idea is transformed into reality.
Unexplored lines meet functional efficacy,
defining projects featuring unique forms
and aesthetics.*
